I oppose HR 4026 and benefit from listening to XM Satellite Radio and its traffic and weather channels. I pay for these services and the NAB should not dictate what I am permitted to hear and/or not hear! I respectfully urge the FCC to reject NAB's petition 04-160. I support XM Radio and the programming they provide. Local broadcasters need to compete by providing better commercial free programming in-lieu-of personality driven "talking heads jabber". And, stop their running and crying to the government when someone else invents a better mouse trap.
